The Assessed Valuation is subject to equalization by the State of Illinois and by the Local Board of Review. These multipliers, known as the "Equalization Factors," are used by the State of Illinois and local government to make assessed valuations uniform throughout the County and State. When the equalizers are determined, this produces a State equalized valuation which appears on your tax bill. The State equalized valuation, less the exemptions is then subject to your local tax rate which is determined by the amount of dollars levied by schools and local governments in your taxing districts.
